

AARAV MEHTA

AI/ML Engineer

Bengaluru, India | aarav.mehta@example.com

PROFESSIONAL SUMMARY

AI engineer shipping computer vision and NLP systems to production. Two years building models and the services around them.

EXPERIENCE

AI Engineer - Vantage Labs, Bengaluru 2024 - 2026

- Trained and deployed a PyTorch object detection model serving 4M requests per month behind a FastAPI service on Azure.
- Built the full deployment path: Docker images, GitHub Actions CI/CD, Nginx reverse proxy with TLS.
- Shipped a retrieval-augmented generation assistant over 200k support tickets using LangChain and Hugging Face Transformers.
- Wrote the evaluation harness that gates every model release; cut regressions reaching production by 70 percent.
- Owns the PostgreSQL schema and all analytics SQL for the ML team.

TECHNICAL SKILLS

Languages: Python, SQL, Bash

AI/ML: PyTorch, TensorFlow, Computer Vision, NLP, RAG, Hugging Face Transformers, LangChain, scikit-learn

Backend: FastAPI, Flask, REST APIs, PostgreSQL

DevOps: Docker, Azure, GitHub Actions, CI/CD, Nginx, Linux

EDUCATION

B.Tech, Computer Science - IIIT Hyderabad 2020 - 2024
