

ISHA KRISHNAN

Machine Learning Engineer

Pune, India | isha.krishnan@example.com

PROFESSIONAL SUMMARY

Machine learning engineer with production experience across vision and language models, and the infrastructure to serve them.

EXPERIENCE

ML Engineer - Northwind AI, Pune 2024 - 2026

- Built a TensorFlow image classification pipeline for document triage, then ported it to PyTorch for faster iteration.
- Served models through FastAPI in Docker containers on Azure VMs, with Nginx handling TLS termination.
- Implemented RAG over internal documentation with Hugging Face embeddings and LangChain orchestration.
- Set up CI/CD in GitHub Actions covering tests, image builds, and staged rollout.
- Wrote the SQL reporting layer used by product to track model quality.

TECHNICAL SKILLS

Languages: Python, SQL

AI/ML: PyTorch, TensorFlow, Computer Vision, NLP, RAG, LangChain, Hugging Face Transformers

Backend: FastAPI, Flask, PostgreSQL, MySQL

DevOps: Docker, Azure, AWS, CI/CD, Nginx, Git

EDUCATION

B.E., Computer Engineering - COEP Pune 2020 - 2024
