

ROHAN VERMA

AI/ML Engineer
Delhi, India | rohan.verma@example.com

PROFESSIONAL SUMMARY

Computer science undergraduate building production computer vision systems and owning their deployment.

EXPERIENCE

- AI/ML Engineer Intern - Vertex Systems, Delhi 2025 - 2025
- Shipped a real-time proctoring system using YOLO detection and face verification, deployed via FastAPI on an Azure VM.
 - Built a resume parsing pipeline with PyTesseract and PDFPlumber supporting multiple document formats.
 - Owned Docker packaging, GitHub Actions CI/CD, and Nginx with Certbot TLS.

PROJECTS

- Text-to-3D Generation Web App - Shape-E with a Flask backend and mesh processing pipeline.
- Facial Emotion Recognition - CNN and LSTM hybrid on FER-2013, 76 percent training accuracy.

TECHNICAL SKILLS

Languages: Python, C++, SQL

AI/ML: PyTorch, Computer Vision, NLP, YOLO, OpenCV, ONNX, scikit-learn

Backend: FastAPI, Flask, REST APIs, PostgreSQL

DevOps: Docker, Azure, GitHub Actions, CI/CD, Nginx, Linux

EDUCATION

B.Tech, Computer Science - NSUT Delhi 2022 - 2026
